

ForeFlight on Your iPad

ForeFlight is the leading iPad-based electronic flight bag. Used properly, it can improve situational awareness, reduce pilot workload and therefore enhance flight safety. This course is designed both for existing users who want to get the most out of ForeFlight and those who haven't used it but are considering making the switch. The presentation will cover everything from an overview of ForeFlight features and workflow, real world VFR/IFR flight planning, and other tips and tricks to help you get the most out of the iPad/ForeFlight. The presentation will be interactive with real-time on-screen demos. Click on the link below and register TODAY.

Directions: From Rt 7 in Great Barrington head west on Rt 23 and bear right on Rt 71. Airport is approx. 2.5 miles from Rt 7.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
